infosafe  
CS: 1.9.605

Page: 1 of 4

Infosafe No™ 5APGZ Issue Date : September 2015 Status : ISSUED

Product Name **SEPTONE PROTECTA PINK**

Not classified as hazardous according to criteria of NOHSC.

## 1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

**Product Name** SEPTONE PROTECTA PINK  
**Product Code** IHPP500D, IHPP500R, IHPP4, IHPP20  
**Company Name** ITW AAMTech (ABN 63 004 235 063)  
**Address** 1-9 NINA LINK DANDENONG SOUTH  
VIC 3175 AUSTRALIA  
**Emergency Tel.** 1800 638 556  
**Telephone/Fax Number** Tel: 1800 177 989  
Fax: +61 2 9725 4698  
**Email** info@aamtech.com.au  
**Recommended Use** Industrial strength hand cleaner.  
**Other Information** Website: www.aamtech.com.au  
\*  
Email: info@aamtech.com.au  
\*  
New Zealand  
2/38 Trugood Drive, East Tamaki, Auckland  
Tel: 0800 438 996

## 2. HAZARDS IDENTIFICATION

**Hazard Classification** Not classified as hazardous according to criteria of NOHSC.  
NON-HAZARDOUS SUBSTANCE.  
NON-DANGEROUS GOODS.

**Safety Phrase(s)** Not Classified as Hazardous according to criteria of National Occupational Health & Safety Commission, Australia (NOHSC).  
Not Classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail. (7th edition)  
S25 Avoid contact with eyes.

**Other Information** As this product is a viscous oil-in-water emulsion, the likelihood of aspiration of Stoddard Solvent into the lungs is substantially reduced due to the product's form, viscosity and phase stability at temperatures up to 40°C.

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

<b>Ingredients</b>	<b>Name</b>	<b>CAS</b>	<b>Proportion</b>
	Stoddard solvent	8052-41-3	30-60 %
	Water	7732-18-5	30-60 %
	Other ingredients determined not to be hazardous	Not required	Balance

## 4. FIRST AID MEASURES

**Inhalation** This route of exposure is not likely due to product nature.

**Ingestion** If swallowed, DO NOT induce vomiting. Give a glass of water to drink. Seek medical attention. Have label or Safety Data Sheet to show if possible.

**Skin** This product is formulated for use on the skin. Use a moisturising or barrier cream if drying occurs, particularly in cold weather.

**Eye** Do not rub eyes. Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting upper and lower lids. Remove contact lenses if worn. Seek immediate medical attention.

**First Aid Facilities** Eye wash or running water.

**Advice to Doctor** Introduction of hydrocarbon solvents into the lungs, as in aspiration of vomitus, may produce chemical pneumonia and may contraindicate use of gastric lavage. Depending on the quantities ingested and the patient's reaction and symptoms, lavage may be indicated. Use endotracheal intubation. Exercise caution.

## 5. FIRE FIGHTING MEASURES

# Material Safety Data Sheet

infosafe  
CS: 1.9.605

Page: 2 of 4

Infosafe No™ 5APGZ Issue Date : September 2015 Status : ISSUED

Product Name **SEPTONE PROTECTA PINK**

Not classified as hazardous according to criteria of NOHSC.

<b>Suitable Extinguishing Media</b>	Use the extinguisher appropriate to the principal fire hazard or to the source of the fire.
<b>Special Protective Equipment for fire fighters</b>	Wear the protective equipment appropriate to fighting the principal fire hazard or the source of the fire. No specific protective equipment required if this product is involved in a fire.
<b>Specific Methods</b>	If safe to do so, remove containers from path of fire.
<b>Specific Hazards</b>	Because this product exists in the form of an oil-in-water emulsion, it will not flash and does not support combustion. However, if the emulsion splits and the product exists in a phase separated form then a flammable vapour space above the product may exist.

## 6. ACCIDENTAL RELEASE MEASURES

<b>Spills &amp; Disposal</b>	Personnel involved in cleaning up any spills are to wear the appropriate protective equipment. Cordon off the spillage area. Isolate the source of the spillage or leak. Contain the spillage using a suitable non-flammable absorbent material such as sand or diatomaceous earth, and then transfer into sealed metal containers for disposal. Dispose of large amounts in a chemical dump according to local authority statutory requirements. For small amounts, wash the product to the drain with a large excess of water
------------------------------	---

## 7. HANDLING AND STORAGE

<b>Handling and Storage</b>	It is recommended that this product be dispensed only through approved dispensers. Dispense only enough product to perform the task. Do not use product which has split. People who use this product regularly are advised to regularly apply a moisturising cream in order to reduce the possibility of industrial dermatitis. Do not apply the product to irritated or dermatitic skin. Do not apply the product to the eyes, lips, mouth or groin area. If irritation occurs or dermatitis develops, discontinue using this product. Store in metal containers in a clean, dry, cool, well ventilated place away from foodstuffs. Keep containers sealed when not in use.
-----------------------------	--

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

<b>National Exposure Standards</b>	White Spirit (Stoddard Solvent) 790 mg/m <sup>3</sup> (TWA). Due to the form in which this product is supplied and under normal conditions of storage and use, the TWA exposure limit for white spirit will not be reached.
<b>Biological Limit Values</b>	None allocated
<b>Engineering Controls</b>	Natural ventilation adequate under normal conditions of use. Keep containers closed when not in use.
<b>Respiratory Protection</b>	In the event of a large spill increase ventilation. No special measures required when used according to directions.
<b>Personal Protective Equipment</b>	Not required under normal conditions of use. Wear gloves and chemical goggles if handling large amounts or cleaning up a spill. Discontinue use immediately upon signs of skin irritation or dermatitis.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

<b>Appearance</b>	Bright pink paste, slight solvent odour.
<b>Boiling Point</b>	Approx. 100°C
<b>Solubility in Water</b>	Disperses in water.
<b>Specific Gravity</b>	0.885 @ 25°C
<b>pH Value</b>	9.0
<b>Vapour Pressure</b>	Not determined
<b>Evaporation Rate</b>	As for Water
<b>Volatile Component</b>	78% w/v
<b>Flammability</b>	Because this product exists in the form of an oil-in-water emulsion, it will not flash and does not support combustion.

Infosafe No™ 5APGZ Issue Date : September 2015 Status : ISSUED

Product Name **SEPTONE PROTECTA PINK**

Not classified as hazardous according to criteria of NOHSC.

## 10. STABILITY AND REACTIVITY

<b>Chemical Stability</b>	Considered stable. Store below 30°C. Keep out of direct sunlight. Keep containers closed when not in use.
<b>Incompatible Materials</b>	Strong oxidising agents.
<b>Hazardous Decomposition Products</b>	During combustion, the water contained in this product may evaporate, leaving a residue which may ignite to produce carbon monoxide as well as other unidentifiable organic compounds.
<b>Hazardous Polymerization</b>	Will not occur.

## 11. TOXICOLOGICAL INFORMATION

<b>Inhalation</b>	Due to the form in which the product is supplied and under normal conditions of storage and use, this product does not present an inhalation hazard.
<b>Ingestion</b>	Ingestion of concentrate may irritate mouth, oesophagus and stomach.
<b>Skin</b>	Prolonged contact with this product may produce mild skin irritation.
<b>Eye</b>	Contact with concentrate may lead to irritation characterized by redness, watering and/or itching.
<b>Chronic Effects</b>	Repeated or prolonged exposure to this material may cause irritation.
<b>Reproductive Toxicity</b>	None of the components of this product is known to be toxic to the unborn foetus.
<b>Mutagenicity</b>	None of the components of this product is known to be a mutagen.
<b>Carcinogenicity</b>	None of the components of this product is known to be a carcinogen.

## 12. ECOLOGICAL INFORMATION

<b>Short Summary of Assessment of Environmental Impact</b>	Stoddard spirit would be expected to evaporate largely to the atmosphere; the less volatile constituents would partition to soil and sediment, where lowered bioavailability would reduce uptake by organisms. Stoddard spirit is readily biodegradable under aerobic conditions. Research indicates that Stoddard spirit has a moderate potential for bioaccumulation; however bioconcentration would be expected to be low. Stoddard spirit exhibits moderate toxicity to aquatic organisms. Most of the other major organic components of this product are expected to be readily biodegradable and to exhibit low aquatic toxicity, although one surfactant is recognised to have poor biodegradability. This product contains inorganic components which will not biodegrade, however these components are not ecotoxic.
--	--

## 13. DISPOSAL CONSIDERATIONS

<b>Waste Disposal</b>	For small quantities, flush to sewer with plenty of water if local regulations allow. Otherwise fully absorb onto solid substrate and place in plastic container prior to disposing through normal commercial refuse system, or at a waste landfill. Consult local council dumps or the manufacturer for proper disposal method in your area in the event of a major spill. Suitable for incineration by approved agent.
<b>Container Disposal</b>	Empty containers should be rinsed clean with water then recycled.

## 14. TRANSPORT INFORMATION

<b>Transport Information</b>	Not classified as a Dangerous Good according to the Australian Code for the Transport of Dangerous Goods by Road and Rail.
------------------------------	--

## 15. REGULATORY INFORMATION

<b>Regulatory Information</b>	Not classified as hazardous according to criteria of NOHSC.
<b>Poisons Schedule</b>	Not classified as hazardous according to criteria of NOHSC Australia.
<b>AICS (Australia)</b>	Not Scheduled
<b>AICS (Australia)</b>	All ingredients listed

**DISCLAIMER:**  
This Material Safety Data Sheet summarises at the date of issue to the best of our knowledge, the health and safety hazards of the product and how to safely handle and use the product.  
As ITW AAMTech cannot anticipate or control the conditions under which the product is used, customers are encouraged, prior to usage, to assess and control the risks associated with their use of the product.  
Data sheets from unauthorised sources may contain information that is no longer current or accurate.  
This MSDS is valid for 5 years from date of issue. However, this version may be revoked and revised at any time, and users should contact ITW AAMTech to ensure they are in possession of the latest version.
